\*Test by KIMM(Korea Institute of Machinery and Materials)  
\*\*Test by KCL(Korea Conformity Laboratories)

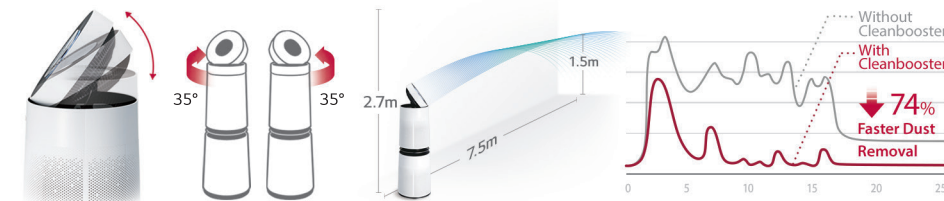

### 360° Purification

The LG PuriCare Air Purifiers is a revolution with its unique 360 degree purification. It thoroughly cleans air from every corner without leaving any blind spot, and has the distinctive feature of 360 degree absorption and discharge as well.

### Clean Booster

Clean booster rises and rotates to deliver clean air to all corners.

Smart Circulator 70° Rotation Circulator 7.5m Far\* Pollution Removal Performance\*\*

\* Test by LG internal lab & KIMM(Korea Institute of Machinery and Materials) / Products: PuriCare AS281DAW / Condition: 203m<sup>3</sup>(10.6 x 7.1 x 2.7m), 24.7°C, RH 37% / Test Particulate size: 0.3μm diameter smoke or potassium chloride(KCl)  
\*\* Test by LG internal lab & KIMM(Korea Institute of Machinery and Materials) / Products: PuriCare AS95GDWP2 with Clean booster mode on & off / Condition: 203m<sup>3</sup>(10.6 x 7.1 x 2.7m), 24.7°C, Products installed in the middle of space Checked cumulative dust concentration at 1.5m height from and 7.5m away from a product during 15mins.

### 6 Step Filtration System

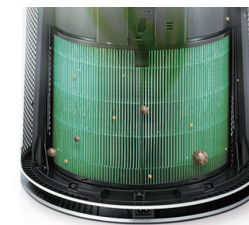

The LG PuriCare Air Purifier has a filter system that removes harmful substance in six steps.

#### Total Allergy/Dust Collection Care

- Step 1 Large dust removal
- Step 2 Dust-storm/Ultra-fine dust removal
- Step 3 Allergy removal

#### Total Harmful Gas Care

- Step 4 Living odor including ammonia (NH<sub>3</sub>)
- Step 5 New house syndrome gases removal (VOC's)
- Step 6 Smog main components removal (SO<sub>2</sub>, NO<sub>2</sub>)

### Smart Sensor & Display

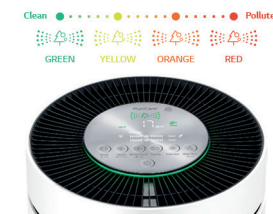

#### Smart PM 1.0 and Gas Sensor

Automatic setting of air flow and operation according to pollution level.

#### Smart Display

Smart lighting emits colors based on your pollution level.

### Baby Care

LG PuriCare delivers clean air at lower places where babies stay, through independently working lower duct.

### Smoke & Odor Care

By virtue of 6 step filtration, LG PuriCare can eliminate unhealthy smoke and unpleasant odor, remove the harmful particles and gas floating in the air.

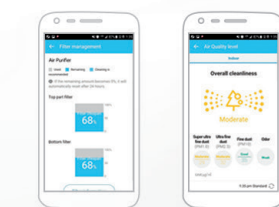

### Kitchen Odor Care

LG PuriCare's smart sensor system will detect various smell and gas while you are cooking, and send clean air to every corner of your home by clean booster.

### SmartThinQ®

Easily access and control Air Purifier's functions from anywhere.
