 Netflix, Stan, YouTube  
 Netflix Recommended TV  
 FreeviewPlus

### Audio

60W Total Output  
 Folding Sound Bar Design  
 Sound designed by harman/kardon®  
 ULTRA Surround

## Perfect Black, Explosive Colour in 4K UHD

### Overview

The revolution has begun.

Combining incredible picture quality with an ultra-premium, Picture-on-Glass design, the LG G6T OLED TV redefines the art of television.

Why is OLED TV different?

LED/LCD TVs use a technology that includes a backlight, so the black scenes are diluted by this lighting that often makes black look charcoal grey. LG OLED TV has no backlight. It delivers pure black and with that comes explosive colour.

#### Sound Bar Stand

The modern 4.2 channel, 60W (65") sound bar speaker integrates into the elegant stand, which also transforms into an optional wall-mount. Enjoy rich and deep sound in every scene.

#### Picture-on-Glass

Picture-on-Glass is made possible by a bold new approach to television design. The OLED module is applied directly to the glass back panel for a clean, ultra-slim profile.

#### No Backlight

With no backlight, the perfectly black background propels incredibly explosive colours. In fact, a billion colours. Just brilliant!

#### HDR - High Dynamic Range

View HDR content to see enhanced graduation of contrast in the light and dark areas of an image as well as the colour to create a new level of realism.

#### Dolby Vision™

Look for movies and TV shows in Dolby Vision streamed on Netflix, that takes HDR footage to a new level. The picture is dynamically optimised scene by scene to deliver refined detail, natural contrast and stunning colour.

#### Smart TV Built-In

LG brings you an incredible range of streamed content with webOS 3.0 Smart TV\* including Netflix, Stan, ABC iView and YouTube. Plus, it's built-in, without the need for a set top box or media player connected by cable.

#### Notes:

\* Internet connection & streaming services membership (where applicable) required. Internet usage charges and conditions apply.

Freeview Plus uses HbbTV technology which combines broadcast and broadband. Contents and features will vary from time to time without notice. webOS internet browser supports HTML5, VP9 and HEVC.

## LG 4K UHD OLED TV

# G6T SERIES (OLED65G6T)

4K UHD OLED TV with HDR & Dolby Vision™

### DISPLAY & PICTURE QUALITY

### WARRANTY

Warranty Period	1 Year Warranty - Parts and Labour
-----------------	------------------------------------

### MORE INFORMATION

- 1 Supports HDR10 format, via HDMI, USB and selected streaming services.
- 2 Voice recognition feature is not available in all languages and dialects. Actual performance may vary depending on the language spoken and surrounding environment including ambient noise.
- 3 Dedicated USB Hard Drive (min. 40GB) required for longer recordings and live playback function (sold separately).
- 4 Some brands not supported, check website for details: [www.lgappstv.com/appspc/oss/support.lge](http://www.lgappstv.com/appspc/oss/support.lge)
- 5 Internet connection required. Internet usage charges and conditions apply. webOS internet browser supports HTML5, VP9 and HEVC.
- 6 FreeviewPlus uses HbbTV technology which combines broadcast and internet streaming. Internet connection is required. Data usage charges and conditions apply.
- 7 Netflix provides content in SD, HD and 4K Ultra HD. Netflix requires a steady internet connection speed of at least 25Mbps to stream 4K Ultra HD content, otherwise content will be downscaled to either HD or SD quality based on the available bandwidth. Speeds of 25Mbps available in limited locations and may vary depending on time of day. Please check with your internet service provider to confirm the bandwidth speed for your connection. Data usage charges apply.
- 8 Miracast compatible Android device required for this feature.
- 9 Intel's WiDi enabled PC must be in range of the TV.
- 10 'LG TV Plus' on compatible Android devices (minimum Android version 4.2) and iOS devices (minimum iOS version 6.1). Device must be in range, on the same Wi-Fi network as the TV.
- 11 Uses Bluetooth® 3.0 technology to send audio to compatible LG home audio products.
- 12 Designed to work with compatible LG Audio only.
- 13 HDMI ports support HDCP 2.2 and 60fps @ 2160p.

All product specifications correct at time of printing. Specifications may change without prior notice. Customers are advised to check with your retailer before purchase.
