1080p Up-scaling

The Full HD up-scaling feature matches lower resolution video content to the native resolution of Full HD displays, resulting in better detail, which is great for your old DVD collection.*

**Image quality of upscaled content will vary based on the source resolution.*

USB Plus: Media Playback

Playback JPEG, MP3 and DivX files, stored on a USB flash memory device.*

**USB flash memory device not included and must be purchased separately.*
