#### Inverter Direct Drive Motor

**LG's Inverter Direct Drive Motor** - allows efficient transfer of energy. It optimises the spray intensity for the selected cycle.

Size - it is smaller than a conventional pump system, which increases the tub size.

**Greater Durability** - and that's why you get LG's 10 Year Parts Warranty.

#### Silence On™ (Low Noise)

LG's Silence On<sup>™</sup> Dishwashers feature the Direct Drive Motor. This innovation ensures that your dishwasher is the last thing you hear in your kitchen. Experience quietness in dishwashing.

#### Smart Diagnosis<sup>™</sup> 2.0

LG's Smart Diagnosis<sup>™</sup> 2.0 allows the Dishwasher to talk for itself. If an error occurs, a phone call can be made to LG Customer Information Centre and the machine will emit a 6 second signal. This allows LG to diagnose the issue resulting in less wasted time and less inconvenience.

# 80°C

#### Extra Hot

**LG's Extra Hot** option increases the Rinse temperature in the dishwasher up to 80°c. This enables the dishwasher to kill harmful bacteria such as Salmonella.
