Powerful & Precise Control

Available September 2016

Features

- ✓ **Heathy Fry**
- ✓ **Precise Control**
- ✓ **Even Defrosting**
- ✓ **Anti-Bacterial Coating**
- ✓ 39L Overall Volume
- ✓ 1100W Inverter Microwave
- ✓ 360mm Turntable
- ✓ Sensor Cook
- ✓ 54 Auto Cook Menus
- ✓ Stable Turntable
- ✓ Quick Start
- ✓ Child Lock

Healthy Fry

The Healthy Fry feature is designed to reduce the amount of fat that remains in food after frying. For example, by using an air fry method of cooking, rather than deep frying the NeoChef™ oven can reduce the amount of residual fat in potato wedges by up to 72%.¹

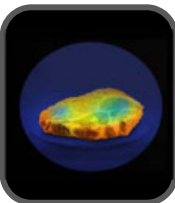

Precise Control

Unlike LG conventional microwave ovens that use an on/off power delivery method, LG inverter technology provides the flexibility to select the power level at the start of the cooking process and varies the power delivered during cooking.

Anti-Bacterial Coating

The Anti-Bacterial EasyClean™ interior coating makes cleaning simple and convenient. Just a few wipes are all it takes to clean the microwave interior. The coating eliminates 99.99%² of harmful bacteria from the surface.

Even Defrosting

The inverter technology in the LG NeoChef™ enables more precise temperature control to help defrost foods and avoid overcooked and unthawed areas.

¹ As shown in testing using crispy tray, potato wedges, canola oil and compared to a deep fryer.
² Tested by SGS
