- ✓ **Included Accessories**
- ✓ **Smart ThinQ™ and Tag On**
- ✓ 9kg Capacity
- ✓ Stainless Steel Drum
- ✓ LED Interior Light
- ✓ 6 Sensors
- ✓ Time Remaining Display
- ✓ Time Delay

Condenser Dryer

Removes the need to fit venting kits in your laundry. This makes installation easier. The condenser drying process removes moisture from the clothes without raising the humidity in your laundry.

Sensor Drying

Using 3 sensors to monitor the moisture and air temperature for optimal drying results. The sensors automatically control the drying time and temperature based on the selected program and help prevent over drying.

Included Accessories

A Stacking Kit allows you to securely stack this machine on top of your LG front load washing machine. This is suitable for both 550mm & 600mm washing machines.
A Drying Rack is great for items that you don't want to tumble dry such as shoes or backpacks.

Smart ThinQ™ and Tag On

With a smartphone and the Smart ThinQ app the dryer can "talk for itself" to find a solution to help save time and money on unnecessary call outs.[1] On a NFC enabled Android device, Tag On uses Near Field Communication (NFC) technology to enable the download of additional drying cycles and the viewing of machines usage history.[2]

[1] Compatible smartphone required, Android 4.1.2 (JellyBean) or later or iOS 8 or later required for LG Smart Laundry app and Audible Smart Diagnosis feature.
[2] Mobile 3G/4G or Wi-Fi connection, Smart ThinQ app is required for Tag On feature.
