FURTHER INFORMATION	

^ Recommended Retail Price (RRP). Prices subject to change and does not include retailer charges.

¹ Motion Clarity Index (MCI) is a dynamic indicator of the clarity of fast moving objects on LG TVs. MCI incorporates the panel frame rate, motion interpolation image processing and backlight scanning technology – all of which work together to reduce blur in fast moving video content like action movies and sports.

²HbbTV is a web based broadcast.

³ Internet connection required. Internet usage charges and conditions apply. webOS internet browser supports HTML5.

⁴ Freeview Plus uses HbbTV technology which combines broadcast and broadband. Internet connection is required. Data usage charges and conditions apply.

⁵ Voice recognition feature is not available in all languages and dialects. Actual performance may vary depending on the language spoken and surrounding environment including ambient noise.

⁶ Miracast compatible Android device required for this feature.

⁷ MHL enabled Android Smartphone or Tablet & MHL cable required (sold separately).
⁸ Dedicated USB Hard Drive (min. 40Gb) required for longer recordings and live playback

function (sold separately). Internal Memory capacity is 4.2GB.

⁹ Video call camera (AN-VC500) required and sold separately

¹⁰ Intel WiDi enabled PC must be in range of the TV.

 11 LG TV Remote - webOS' on compatible Android devices (Android 4.0+) and iOS devices (iOS 6.1+). Phone must be in range, on the same Wi-Fi network as the TV.

¹² Some brands not supported, check product for details.

¹³ Uses Bluetooth 3.0 technology to send audio to compatible LG home audio products ¹⁴ Netflix provides content in SD, HD and 4K Ultra HD. Netflix requires a steady internet connection speed of at least 25mbps to stream 4K Ultra HD content, otherwise content will be downscaled to either HD or SD quality based on the available bandwidth. Speeds of 25mbps available in limited locations and may vary depending on time of day. Please check with your internet service provider to confirm the bandwidth speed for your connection. Data usage charges apply.

All product specifications correct at time of printing. Specifications may change without prior notice. Customers are advised to check with your retailer before purchase.

6-Step Upscaling

Upscale non-4K ULTRA HD content The 4K ULTRA HD Engine upscaler enhances the detail of non-4K ULTRA HD content in 6 stages to augment the image clarity closer to ULTRA HD quality.

IPS Panel

LG IPS panels allow you to enjoy lifelike picture quality with minimal variation from wider viewing angles. Featuring superior consistency in colour temperature and less change in contrast, LG IPS panels boast excellent image reproduction.

Dare to be different

When style is of the essence in your home, our curved 4K Ultra HD TV makes an impact.

See Colours Come Alive

An immersive 4K Ultra HD experience on a curved screen

LG 4K UTRA HDTV

When style is of the essence in your home, LG's curved 4K Ultra HD TV makes an impact. A breathtaking viewing experience with incredibly crisp vision, even when viewed from close distances; with over 8 million pixels and four times the definition of Full HD TV panels, you really notice the 4K Ultra HD difference.* The IPS Panel used by LG is the reason why LG TVs have amazingly clear, consistent and sturdy screens, combined with local dimming LED backlights for enhanced image contrast. This Smart TV is powered by our webOS operating system., providing quick and simple access to the content* you love most.

* Ultra HD broadcasting not available in Australia. 4K Ultra HD content is available from other sources. Image quality of upscaled content will vary based on the source resolution. * Internet connection required. Internet usage charges and conditions apply.
